EXPERIENCE

Financial Researcher - Banxico	Feb. 2024 - Present
Financial Researcher at Banco de México within the Regulatory and Competition Analysis Department of the Financial Services Evaluation Directorate. I contribute to analysis and evaluation projects related to competition conditions in the Mexican financial system. My responsibilities include integrating complex datasets, applying statistical and econometric methodologies, and producing visualizations, reports, and proposals aimed at strengthening the protection of the public's interests in the financial sector. My work supports the identification of market opportunities for improvement and the formulation of recommendations to enhance access to financial products for diverse population segments.	
Data Analyst - Blutitude	Feb. 2023 - Feb. 2024
Data Analyst at Blutitude, a consulting firm focused on health economics. I collaborated in cleaning and analyzing large medical claims databases from insurance companies. My work included building visualizations and applying statistical and econometric techniques to generate quality metrics of private hospitals in Mexico. These results were an integral part of the National Ranking of the Best Private Hospitals in Mexico 2023, published in Expansión magazine in collaboration with FUNSALUD.	

Intern - Blutitude

Jul. 2022 - Feb. 2023

Intern at Blutitude. I contributed to the development and refinement of hospital discharge databases and physician directories, using R and Excel, as well as web scraping and fuzzy matching techniques. These inputs supported part of the analyses that led to the National Ranking of the Best Private Hospitals in Mexico 2022.

Research Assistant - Ph.D. GADAM

Feb. 2022 - Feb. 2024

Research Assistant in Financial Inclusion under the supervision of Ph.D. Gustavo A. Del Ángel Mobarak. I carried out key tasks in data collection, cleaning, and analysis to produce visualizations and provide valuable insights. In addition, I prepared meticulous syntheses of academic papers and books relevant to the field of study. My work was essential to advancing understanding and promoting innovative solutions in the area of Financial Inclusion.

Teaching Assistant - Ph.D. SDG: CIDE

Jan. 2022 - Jun. 2022

Teaching Assistant for Microeconomics II under the supervision of Ph.D. Sonia Di Giannatale. I actively supported 16 second-year B.A. in Economics students. I taught weekly 120-minute sessions and graded the problem sets and assignments designed by the professor, ensuring solid understanding of the concepts and fostering a collaborative and enriching learning environment for all students.

VOLUNTEER WORK

Mathematics Teacher and General Coordinator - IncluCIDE

Jan. 2020 - Jun. 2023

IncluCIDE is an ongoing program focused on reducing the learning gap in Mathematics and English between public and private schools in Mexico. During my time as a teacher and general coordinator, I led the academic and operational organization of a teaching team that delivered free online classes to public elementary and middle school students across sixteen states in the country.

Mathematics I Tutor - Mathematics Center: CIDE

Aug. 2019 - Dec. 2019

At the CIDE Mathematics Center, I served as a volunteer tutor specializing in Mathematics I, a course focused on Differential Calculus and Linear Programming. Through a didactic, motivating, and personalized approach, I guided students in developing analytical and conceptual skills, strengthening their understanding of key topics and fostering academic success.
